

Annual HFHS Publications List 2015

This bibliography aims to recognize the scholarly activity and provide ease of access to journal articles, meeting abstracts, book chapters, books and other works published by Henry Ford Health System personnel. Searches were conducted in PubMed, Embase, Web of Science, and Google Scholar during 2015, and then imported into EndNote for formatting. Each citation is listed only once, under the department with which the first HFHS author is affiliated.
