

## Henry Ford Health System Publication List – Annual List 2020

---

This bibliography aims to recognize the scholarly activity and provide ease of access to journal articles, meeting abstracts, book chapters, books and other works published by Henry Ford Health System personnel. Searches were conducted in PubMed, Embase, and Web of Science during the year, and then imported into EndNote for formatting. There are **1,504 unique citations** listed this year, with **108 articles and 7 abstracts on COVID-19**. Articles are listed first, followed by [conference abstracts](#), [books and book chapters](#), and a [bibliography of publications on COVID-19](#). Because of various limitations, this does not represent an exhaustive list of all published works by Henry Ford Health System authors.
