
Henry Ford Health Publication List – Annual List 2023

This bibliography aims to recognize the scholarly activity and provide ease of access to journal articles, meeting abstracts, book chapters, books and other works published by Henry Ford Health personnel. Searches were conducted in PubMed, Embase, and Web of Science during the year, and then imported into EndNote for formatting. There were 1,910 unique citations in 2023, including 1,335 articles, 478 conference abstracts, and 97 books or book chapters.

Articles are listed first, followed by [conference abstracts](#) and [books and book chapters](#). Because of various limitations, this does not represent an exhaustive list of all published works by Henry Ford Health authors.

Click the “Full Text” link to view the articles to which Sladen Library provides access. If the full-text of the article is not available, you may request it through ILLiad by clicking on “Request Article,” or calling us at (313) 916-2550. If you would like to be added to the monthly email distribution list to automatically receive a PDF of this bibliography, or you have any questions or comments, please contact smoore31@hfhs.org. If your published work has been missed, please use this [form](#) to notify us for inclusion on next month’s list. All articles and abstracts listed here are deposited into [Scholarly Commons](#), the Henry Ford Health institutional repository.
